OBJECTIVE

Dedicated and detail-oriented Civil Engineer with a BS in Civil Engineering Technology and a DAE in Civil. Equipped with hands-on experience gained through multiple internships and professional roles as a Site Engineer and Site Supervisor. Adept at project planning, site supervision, quality control, and ensuring compliance with safety and construction standards. Seeking a challenging position in a dynamic organization where I can apply my technical knowledge, problem-solving skills, and field expertise to contribute to successful project execution and career growth.

FINAL YEAR PROJECT

Hydro power potential of Hunza River

EXPERIENCE

Site Supervisor Sep 2024- Till Now
Aga Khan Agency for Habitat (Cluster Housing Project Ganjabad Gilgit Baltistan)

Site Engineer June 2023 - June 2024
Engineering Management Service (EMS)

- Worked as a Site Engineer on the Gilgit-Shandoor Construction Project of 216 Km road, a joint venture with NINGXIA Communications Construction

JOB RESPONSIBILITIES

- Supervise and oversee construction projects to ensure compliance with design specifications, safety regulations, and quality standards.
- Coordinate with architects, contractors, and subcontractors to ensure smooth project execution and timely completion.
- Monitor and manage on-site activities, resolving technical issues and ensuring adherence to project timelines.
- Conduct site inspections and surveys to assess progress and identify any deviations from plans.
- Prepare and maintain detailed project documentation, including daily reports, material usage, and progress updates.
- Ensure that construction materials and equipment meet project requirements and industry standards.
- Assist in cost estimation, budgeting, and resource allocation to optimize project efficiency.
